Summary

Full Stack Developer with 6 years of experience in designing and deploying scalable web applications. Expertise in Spring Boot for backend services, Angular for user interfaces, and Salesforce integration. Demonstrated ability to deliver maintainable code and implement JUnit testing strategies, alongside building automation frameworks with Selenium to enhance application performance.

Skills

- Java and Spring Boot
- Angular development
- SQL and JavaScript
- HTML5 and CSS

- Unit testing frameworks (JUnit , Jest)
- Selenium testing
- Salesforce development

Experience

08/2022 - Current
Software Engineer, **Cognizant**, Hyderabad, India

- Developed software solutions leveraging Java, Spring Boot, Angular, and Salesforce for diverse client projects.
- Implemented and documented software programs using Java, Spring Boot, JavaScript, HTML, and CSS.
- Created RESTful APIs to improve system integrations and enhance overall functionality.
- Designed SQL databases for efficient application data storage and retrieval.
- Participated in agile ceremonies to promote team collaboration and project advancement.
- Mentored junior developers on coding standards and best practices to ensure quality output.

07/2019 - 08/2022
System Engineer, **Tata Consultancy Services Ltd**, Chennai, India

- Developed software applications using Java, Spring Boot, and Angular for diverse projects.
- Created applications utilizing HTML, CSS, and JavaScript along with additional programming languages.
- Implemented RESTful APIs to enhance system integrations and improve overall functionality.
- Automated testing processes with Selenium to ensure software quality and reliability.

Projects

Salesforce SFDC IT Enablement (Mar 2024 - Till Date, At Cognizant)
- Partner Learning Camp (PLC) is the primary learning destination to expand capabilities to meet customer needs now and in the future.
- Made just for Salesforce partners, PLC offers a growing list of on-demand training and engaging events, curated for all Partner Trailblazers, including ISVs, consulting firms, agencies, and resellers.
- Worked on apex, aura, lwc components. Resolved PMD issues, Accessibility issues, fixed bugs in front-end

United Parcel Service (Oct 2022 - Mar 2024, At Cognizant)
- United Parcel Service (UPS) is an American multinational shipping and receiving, and supply chain management company, originally known as the American Messenger Company, specializing in telegraphs
- Worked on both front-end and back-end technologies, depending on the requirement Developed new RestEnd Points, to create, update and insert reports and to display them in a responsive table. Fixed bugs and monitored logs, Written junit test cases.

United States Automobile Association (Oct 2019 - Aug 2022, At TCS)
- The United States Automobile Association's mission is to facilitate the financial security of our members by offering a full range of highly competitive financial products and services
- There were several products at USAA, I worked on auto insurance and property insurance, developing web pages for a mobile application in JSP and a dot-com site in ReactJS, HTML, CSS, JavaScript, and Spring Boot technologies
- Performed quality assurance in the initial stages, regression testing, unit testing, and necessary accessibility testing post development of web pages
- Implemented Selenium scripts for automation testing Resolving the impediments/issues raised and monitoring splunk logs and kibana logs.

Education And Training

03/2019
B.Tech, Computer Science And Engineering
Bapatla Engineering College, Bapatla

- 8.19 GPA

03/2015
Intermediate, M.P.C

Bharathi Junior College, Chirala

- 96.4 %

03/2013
10th Standard
Raghavendra English Medium School, Chirala

Activities And Honors

- Developed a webpage to test the entire UI with multiple combinations of inputs by using HTML5, CSS, and Selenium in Java.
- Developed a web page that takes a huge number of submitted reports and displays them in a table with pagination and sorting.
